

St. F.X. University - The Bluenosers “Bon Voyage Hunger”

The Bluenose has been admired by many around the world as a hardworking and accomplished ship that brings Maritimers a sense of pride. Once again the Bluenose is trying to make Nova Scotia proud, but this time it's bringing a ship load of food to help combat the growing problem of hunger. We hope that our design, while being aesthetically pleasing, will also bring attention to, and help combat, the issue of hunger in our communities.
