

## St. F.X. University - The Hi-Risers “Burj Canlifa”

In engineering we focus on the biggest and most complex problems life has to offer. We often forget that for many, putting food on the table is a challenge in itself. By building our tower – an analog of the tallest in the world – out of cans, we aim to make the issue of hunger stand out just as starkly as the Burj Khalifa does against the skyline of Dubai.

Team: Dan Gasparetto, Captain  
Elliot Fougere  
Brayden Hoste Poirier  
Robyn VanZutphen  
Nicole Langille

Thanks to our other team members: Neil Gillis, Emily Chaisson, Noah Anderson, Randi Kennedy, Connor Jordan, Ross Bagnell, and Dylan Bastin-DeCoste.

Special thanks to all of our contributing sponsors.
