

Hunters Helping the Hungry is a joint initiative of the hunting community and Feed Nova Scotia, where hunters can donate a portion of their deer, moose, or bear meat to help support Nova Scotians who access food banks.

The Nova Scotia Federation of Anglers & Hunters continues to support the program, and once again they have organized a draw for a chance to win a rifle. Every hunter making a donation will receive a ballot, and one ballot will be drawn at the Federation of Anglers and Hunters annual general meeting in March/April each year. Ballots and details are available at each of the licensed meat cutter locations. Please refer to the poster outlining details.

In 2021, hunters donated 1,074 kilograms to the program. That's an incredible 10,740 servings of much-needed protein for Nova Scotians. Over the 16 years since the program began, hunters have generously donated a total of 13,972 kilograms, and that translates into 139,720 servings of protein.

A sincere thank you to the hunters for their continued support of the program. This would not be possible without you.

#### **How does the program work?**

1. Hunter registers deer/bear/moose
2. Hunter takes deer/bear/moose to a licensed participating meat cutter
3. Complete your order request and ballot, with **name** and **wildlife resource card number**.  
**The winner must be in possession of a valid PAL.**
4. Feed Nova Scotia picks up donations and ballots from licensed meat cutters. The draw will take place with the Federation of Anglers & Hunters in the spring of 2023.

Note: Processing is at hunter's expense.

#### **How can I get involved?**

Contact a participating licensed meat cutter. See the list below.

#### **How much can I donate?**

We will gladly accept any amount.

#### **Are there any guidelines for donating deer and moose meat?**

Yes. Participating meat cutters will ensure the meat has been handled properly to ensure food safety.

*Thanks to our partners— Nova Scotia Federation of Anglers & Hunters and Nova Scotia Departments of Environmental Health & Food Safety and Lands and Forestry.*
