

Hunters Helping the Hungry is a joint initiative of the hunting community and Feed Nova Scotia, whereby hunters can donate a portion of their deer/moose or bear meat to help support Nova Scotians who access food banks.

The Nova Scotia Federation of Anglers & Hunters continues to support the program, and once again they have organized a draw for a chance to win a rifle. Every hunter making a donation will receive a ballot, and one ballot will be drawn at the Federation of Anglers and Hunters annual general meeting in March/April each year. Ballots and details are available at each of the licensed meat cutter locations. Please refer to the poster outlining details.

In 2022, hunters donated 976 kilograms to the program. That's an incredible 9,760 servings of much-needed protein for Nova Scotians. Over the 17 years since the program began, hunters have generously donated a total of 14,948 kilograms and that translates into 149,480 servings of protein.

A sincere thank you to the hunters for their continued support of the program. This would not be possible without you.

How does the program work?

1. Hunter registers deer/bear/moose
2. Hunter takes deer/bear/moose to a licensed participating meat cutter
3. Complete your order request and ballot, with **name** and **wildlife resource card number**.
The winner must be in possession of a valid PAL.
4. Feed Nova Scotia picks up donations and ballots from licensed meat cutters. The draw will take place during the Federation of Anglers & Hunters Annual General Meeting in March/April 2023.

Note: Processing is at hunter's expense.

How can I get involved?

Contact a participating licensed meat cutter. See the list below.

How much can I donate?

We will gladly accept any amount.

Are there any guidelines for donating deer and moose meat?

Yes. Participating meat cutters will ensure the meat has been handled properly to ensure food safety.

Thanks to our partners— Nova Scotia Federation of Anglers & Hunters , The Nova Scotia Department of Environment and Climate Change, Environmental Health & Food Safety Branch and The Department of Natural Resources and Renewables, Wildlife Division.
